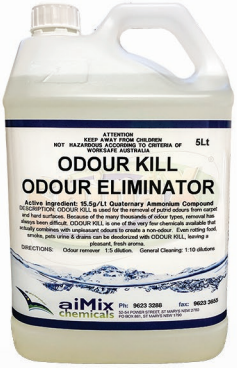
DIRECTIONS: Use ½ cup of water or maybe add directly after wetting the animal. PETWASH is a basic shampoo for dogs, cats, & cattle.



Odourkill

DESCRIPTION: ODOUR KILL is used for the removal of putrid odours from carpet and hard surfaces. Because of the many thousands of odour types, removal has always been difficult. ODOUR KILL is one of the very few chemicals available that actually combines with unpleasant odours to create a non-odour. Even rotting food, smoke, pets urine & drains can be deodorized with ODOUR KILL, leaving a pleasant, fresh aroma.

DIRECTIONS: Odour remover 1:5 dilution. General Cleaning: 1:10 dilutions

Viral Control

Viral Control Sanitiser is a fast acting APVMA approved sanitiser formulated to kill even the toughest of viral germs in applications such as: Poultry Sheds, Veterinary Kennels, Farm machinery & equipment, General Sanitation. Directions:

1. REMOVE ALL ANIMALS AND BIRDS.
2. Remove all portable equipment.
3. Remove litter and manure from floors and other surfaces.
4. Empty all water and feed containers.
5. Remove all organic contaminants using an effective detergent such as Multi-Purpose Cleaner diluted at 1:30 Allow to dry before disinfecting with VIRAL CONTROL SANITISER.
6. Saturate all surfaces with VIRAL CONTROL SANITISER at a dilution rate of 1:150 using a pressured unit or orchard sprayer.
7. Then ventilate thoroughly before reuse
