## Fruit and Veg Sanitiser

Fruit & Veg Sanitiser is a sanitising wash for fruit, vegetables and salad goods in both uncut and peeled states.

A must have product, it's unique formula allows it to kill bacteria and health threatening germs.

Directions for use: The recommended solution strength for the sanitising wash is 1:10 of the Fruit & Veg Sanitiser concentrate in clean / fresh water.

## Warrior

An all-purpose, antibacterial cleaner that is ideal for removing tough stains on ovens, hotplates, benches, floors and tiles. Can even be used to degrease and clean vehicles.

Directions: Oven & Hot Plates: Warm the oven or hot plate, then switch off. Spray sides of the oven first then top then bottom. Leave for 5-10 minutes on warm surface or 20 minutes on cold surfaces. Wipe off with a clean damp cloth, sponge, or paper towels. Do Not spray on electrical connections.

Disinfect & Clean: 1 part Warrior to 4 parts Water.

Vehicle Cleaning: For engine degreasing, debug and cleaning alloy rims, spray Warrior neat. Leave for 5-10 minutes on warm surfaces, 20 minutes on cold surfaces. Rinse off with high-pressure hose. To use as a car and truck shampoo to effectively remove traffic film, mix at 1:20 in warm water. Brush or sponge vehicle surface in a shaded area and then rinse starting at the bottom first then the top.

Bench, Floor, & Tile Cleaner: Warrior can be diluted with water 1:20 in warm water, applied by brush, mop, swap, and allowed to remain for 5-10 minutes. The surface may then be rinsed or wiped clean. For heavier soils a more concentrated solution is needed and longer contact time.

## Mould Remover

Mould Remover is a heavy duty formula that is designed to remove & clean up mould, dirt, grease, smears & grime

Just spray & Wipe, kills germs fast & is suitable for use on all common surfaces including bath & kitchen walls.

Wear gloves when refilling. Spray approx 20cm from surface leave few minutes & wipe away.
