It will quickly dispose of grease and leaves dishes spotless. Directions: Pour one table spoon of dishwashing liquid in the sink, fill with warm water, and use a sponge to clean the dishes, rinse with water.

Fresh Dawning

cuts through the toughest grease and contains special additives to be kind to hands. Formulated for commercial restaurants, hotels, motels and domestic kitchens.

This product is also good multi-purpose detergent. It quickly disposes of grease and leaves dishes and surfaces spotless. PH balanced to give a more powerful cleaning ability.

Orange Splash

DESCRIPTION: Spray and wipe cleaner/degreaser concentrate with D-Limonene and vegetable detergents.

DILUTION: Heavy carbon based soils – Like chicken rotisseries, stove etc. use undiluted and leave soak for at least 5 minutes before agitation with a scouring pad. Heavy fatty, greasy deposits and soap scum found in shower blocks, kitchens mining camps, engineering works. General Spray & Wipe Cleaning – Dilute- 1 part cleaner to 10 parts water (50mls to 500mls water.) Apply by refillable trigger spray – It instantly dissolves ink stains and general grime.

Floor Cleaner

FLOOR CLEANER removes most soil from hard surfaces leaving tiles shiny and clean. Product leaves behind a pleasant fragrance after cleaning. Floor cleaner is also suitable for timber polished floors.

DIRECTIONS: Add ½ to 1 cup to a bucket of hot water. Mop liberally. For Timber Floors add 100ml per mop bucket of warm water. Suitable for use in kitchens and food preparation areas!

DOMESTIC

Comby Oven Cleaner

COMBY OVEN CLEANER has been specifically formulated to provide a simple to use highly effective maintenance cleaner for stainless and steel comby ovens.

DIRECTIONS: General cleaning : Dilute : 1 part to 5 parts of water. Heavy Duty Cleaning: Use undiluted. Rinse all areas completely after use. Do not mix with any other chemical. Store in a cool area away from direct sunlight.

Quick Clean Outdoor Cleaner

Quick Clean Outdoor Cleaner cleans stains such as Algae, Mould and Mildew.

DIRECTIONS: Just spray on and hose off!

Pressure washing not required. It's safe to use around your lawn and plants when used as directed. Quick Clean Outdoor Cleaner is biodegradable when rinsed into the soil. It works on a variety of different surfaces: concrete sidewalks, asphalt driveways, brick walls, plastic outdoor furniture, vinyl siding etc. Not to be used on wood decks.

Organic HDC

Organic Heavy Duty Cleaner is a biodegradable, septic safe cleaner designed for easy cleaning and removal of grease and grime from walls, doors etc while still keeping our planet Earth clean too.

It is safe on most surfaces and is safe on colourfast fabrics. Suitable for use in kitchens and food prep areas.

Dilutions: General Purpose Cleaning: 10 Parts Water to 1 Part Organic HDC

Heavy Duty Cleaning: Undiluted.

Vinegar

Fantastic cleaning ability and effective anti-bacterial properties. It is a safe, non toxic way to get your home or work cleaned, disinfected and chemical free, without compromising your health or safety.

Effectively killing germs and bacteria due to it's acidity levels. It's also a smart cleaning choice being 100% biodegradable and environmentally friendly helping you avoid the use of harsh chemicals.

DIRECTIONS: Spray vinegar full strength on tile and grout. Let it sit for a few minutes, then use a scrub brush to brighten grout.

- ✓ Vinegar will help reduce mildew in the bathroom
- ✓ Clean floors, walls, tiles, drains, windows, grills,
- ✓ Use in laundry to brighten and whiten clothes and remove stains
- ✓ Kills germs, removes odours

Window Cleaner

Window Cleaner is a blue clear liquid for cleaning glass, chrome, and laminates, etc.

DIRECTIONS: Apply the liquid to the surface of the glass, and then wipe off until the glass surface is dry.

BATHROOM

Total Bathroom & Toilet Cleaner

DIRECTIONS:

As a toilet bowl cleaner and urinal cleaner: Distribute over toilet bowls, urinals, seats etc. and scrub in with a brush or sponge and allow time to disinfect area.

Flush or hose off with water. As a disinfectant, deodorizing cleaner: 1part to 20 parts water and apply with mop, sponge or spray to showers, basins, taps, bench tops and hard surfaces. It is a complete urinal, shower and washroom cleaner. It is designed to be applied undiluted to remove acid build-up, body fats, scale and mildew, cleaning, deodorizing and leaving areas free of harmful bacteria.

Hypofoam

Hypofoam is a highly concentrated viscous liquid that sticks to walls. It is a disinfectant purpose made to remove mould, dirt, smell from houses, buildings and offices and kill germs.

It can also be used to clean shower recesses, tiles, drains, waste pipes, toilets, cutting boards, bins, dental surgeries, bathroom floors, and work surfaces. It is also useful for meat/poultry transport, cool rooms and food prep areas.

Hypofoam is bleach based. Spot test before use. May discolour surfaces and fabrics. Do not use on metallic surfaces. Do not use on enamel, porcelain or laminates if worn or cracked.

Bathroom Wiz

Bathroom Wiz is a concentrated viscous liquid that sticks to walls. It is a disinfectant purpose made to remove mould, dirt, smell from houses, buildings and offices and kill germs.

It can also be used to clean shower recesses, tiles, drains, waste pipes, toilets, cutting boards, bins, dental surgeries, bathroom floors, and work surfaces.

Bathroom Wiz is bleach based. Spot test before use. May discolour surfaces and fabrics. Do not use on metallic surfaces. Do not use on enamel, porcelain or laminates if worn or cracked.

DIRECTIONS:

UNDILUTED: Shower recess and tiles: Undiluted. Spray on, leave for 10 minutes to kill mould and germs. Toilets: Spray around bowl rim and into the water to kill germs, and remove stains and odours. Waste pipes, grease traps, and drains: Squirt in, leave for 10 minutes, rinse to remove grease, dirt and smells. Hospitals and Dental Surgeries: Especially suitable to kill germs.

DILUTED: Bathroom floors, work surfaces: For use as a cleaner, dilute 35:1 with water and wash surfaces to thoroughly disinfect, and then wash down with water. Nappies: To eliminate stains from white nappies, remove solid matter and soak overnight in a solution of 75:1 (60ml/bucket of water) and then launder.

LAUNDRY

Adsoft Floral Fabric Softener

Adsoft Floral Fabric Softener is a concentrated formulation that will leave clothes feeling soft and with a pleasant apple fragrant smell.

DIRECTIONS: Use 30-60ml of Adsoft per wash in the final rinse of domestic washing. Use 100 – 150ml of Adsoft per 50 litre of water for commercial washing machines.

Dew Drops

DEW DROPS fabric softener is a pale blue opaque cationic softener with specially selective additives, which, when added to the final rinse cycle of all wash loads, greatly adds to the feel and life of all fabrics.

It has a wonderful mild floral water lily fragrance after washing.

DIRECTIONS: Use 30-60ml of Adsoft per wash in the final rinse of domestic washing. Use 100 – 150ml of Adsoft per 50 litre of water for commercial washing machines. For washing machines with automatic dispensers, fill to the level indicated in the instruction manual.

Liquid Bleach 12.5%

A powerful cleaning bleach for removing stubborn stains, effective for cleaning whites and nappies, and general cleansing. Other uses are: bleaching, purification of water,

sterilizer, fungicide, germicide, and swimming pool disinfectant. **DIRECTIONS:** For general sanitising, 1 volume of product to 420 volumes of water, or 2.4ml of product per litre of cold water to give a normal 300ppm available chlorine. Suitable for use in kitchens and food preparation areas. Bleach is also available in 6% and 4% strength.

Nappy Soaker

NAPPY SOAK is an enzyme boosted white powder used to help in the removal of protein stains and stubborn stains from fabric. It has no fragrance.

USES AND METHODS: NAPPY SOAK is for hand or machine washing. For use as a presoak, add one tablespoon of powder per 5 litres of warm water, and then soak clothing for 1 to 2 hours. Rinse and wash in the normal way. For overnight soaking, add 1 to 2 teaspoons per 5 litres of water, and then rinse and wash in the normal way. To enhance the power of your normal washing method, 1 tablespoon of powder can be added to your machine. For best results, do not use chlorine bleach.

Euco Woolwash

DIRECTIONS: Use ½ cup of Woolwash to about 5 litres of warm water. Squeeze the liquid gently through the clothes and then leave them to soak for a few minutes. Drain off the excess moisture - BUT DO NOT RINSE.

You can roll the clothes in a towel and/or spin dry. By retaining liquid woolwash in the garment, not only is the garment thoroughly cleaned but the eucalyptus oil restores the feel and look to all woolen items (by restoring natural oil).

AUTOMOTIVE

Vinyl Gloss

DIRECTIONS: Spray a small quantity on to the vinyl and rubber surfaces or wipe with lint-free cloth and allow to dry.

Extra shine maybe obtained by buffing with a dry cloth. Vinyl Gloss is safe for use on all surfaces such as bumpers, cover strips, etc.

Waterless Car Wash

Simply Spray on vehicle surfaces including glasses, mirrors, vinyl, leather, wheels. Dry out with piece of cotton cloth. Leave your vehicle clean and shiny.

Overcoat

DIRECTIONS: OVERCOAT is a spray tyre dressing with non-silicone spirit base. It helps restore the original colour of rubber and plastic and will give a tremendous wet look and brilliant gloss.

USES & METHODS: For an excellent result, surfaces should be thoroughly cleaned and dry. Then spray directly onto the surface and allow air to dry.

Rigwash Advanced

DIRECTIONS: High-pressure units- 1 part RIG WASH in 10 parts water. Sponge or broom wash 1 part RIG WASH in 20 parts water.

For best results RIG WASH should be left on surface for 10-15 mins, before rinsing off. Once surface is thoroughly clean, RIG WASH may be sprayed and left on surface to be rinsed off at later time.

COSMETIC

Pearly Hand Wash

DIRECTIONS: Pearly hand soap offers a unique and practical alternative to tablet soap, at an economical price. It is also an alternative to actual soap on tap refills.
